FUR DEPARTMENT

WHEN the quality of merchandise is such that you must rely on the representation of the house from which you purchase instead of on your own knowledge of the actual value of such goods, it is imperative that you should trade with a firm of unquestioned reputation. Buying skins direct from trappers, shippers, and from the leading fur-trading centres of the world, we can guarantee the quality of skins we use. Designing and manufacturing the same on our own premises, employing none but experienced help, we have no hesitation in stating without fear of contradiction that we can offer Fur Garments at lower prices than any other manufacturer of high-grade furs in the market.

Every Watch is the same size as Cut. Guaranteed to give satisfaction.

PARTICULAR CAUTION - - Re WALTHAM WATCHES.

BE sure when you are examining movements to look for the name "American Waltham Watch Co." stamped on the plate of movement. There are imitations of these movements offered for sale with the name Waltham on the plates, but are not manufactured by the genuine Waltham Watch Company. We sell only the genuine. They cost a little more, but we know them to be reliable time-keepers. Every movement is examined by expert watchmakers, not only by the makers, but before leaving our store. We take pleasure in answering questions, and should you want to know anything that we have not told you in our Catalogue, write to us. Information about Presentation watches, or with diamond or pearl settings, Repeaters, Split seconds and Minute register watches suitable for timing races, etc., Ship chronometers, Tower clocks, etc., will be gladly given for the asking. The success of our Watch Department is due to reliable goods. Elgin and Waltham watches are well known. A guarantee is sent out with every watch movement. Look for it. We stand by them.

Drugs and Medicines.

Prices Quoted for Drugs are Subject to Market Changes Without Notice.

DRUGS and medicines being, as a rule, required for the alleviation of disease and suffering, people require the purest and best, no matter what price they pay. We buy none but the best, consequently have none other to sell. Physicians sending in their list of requirements for quotations will find our prices right, taking quality into account. On account of the varied stock of drugs, chemicals and pharmaceutical preparations, as well as sundries, which we carry, we have not had a special list printed for physicians. Physicians' prescriptions are dispensed by qualified chemists only, and are then thoroughly checked before being sent out, so as to insure against any possible error. The following quotations are for the ordinary quantities for the home and farm.

Containers.

We charge extra for containers, the bottles range at following prices:

½ to 2-oz bottles.....	2c each.
3 " 4 " "	3c "
6 " 10 " "	4c "
12-oz bottles.....	5c "
16 " "	5c "
20 " "	6c "
32 " "	10c "
80 " "	15c "

When pounds are quoted, it means 16 fluid ounces if liquid, and 16 ounces by weight if dry. A pint is 20 fluid ounces, and a gallon 8 fluid pints. Exceptions specially mentioned.

All prices in this list are subject to the fluctuation of the market. When ordering, give full name and describe what preparation is required, as for instance: Extract of belladonna, solid; fluid extract of belladonna, root or leaf; tincture of belladonna, liniment of belladonna, etc., etc.

NOTE.—When ordering poisonous drugs it is always better to have an order from a physician, as we do not send out poisons indiscriminately.

We will send samples of coverings used on parlor suites, lounges, easy chairs, etc., on application. Always state price of article you require. Parlor suites can be upholstered in different colors on separate pieces, if so selected, at the same price.

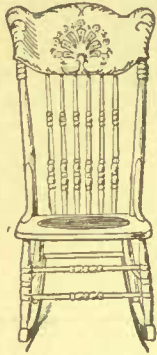

As rugs for Nos. 15 and 2½ suites and rug lounges are made in squares, special sizes to fit, we cannot cut off samples.

We upholster all our own goods and guarantee all work to be first-class, new, fresh and clean. It usually takes from two to three days to make up parlor suites when special colors or coverings are required.

Wall Paper Department.

WE have remodelled this department, giving additional floor space, which makes it nearly double its former size; this was necessary owing to our ever increasing trade.

For the Fall we have added new lines to our stock of wall papers, selected from the leading English, American and Canadian manufacturers. From our well-assorted stocks

we are in a position to meet every demand, either for cheap papers or up to the best grades of embossed and heavy relief golds.

RULES FOR MEASURING A ROOM.

To find the number of single rolls required, multiply the distance around the room by the height, taking out 20 square feet for each opening, and divide by 30. To find the quantity for ceiling, multiply the length by the width and divide by 30.

For plain ingrains (30 inches wide), divide by 60, and the result will be the number of rolls required.

N. B.—Wall papers are sold by the single roll, but put up in double rolls, as they then cut to better advantage.

The price for border is for a single strip the width of the border, and one yard long.

Whole rolls of paper will be exchanged, providing we still have the same in stock, but we will not exchange borders or trimmed papers.

Before returning paper left over please send samples to us so that we can inform you if paper is still in stock; by doing this you may save charges.

Samples will be mailed free upon application. Always state what priced papers you wish, also width of border and color effect desired, to enable us to make a suitable selection.

Ceiling papers are the same price as the walls they match, with the exception of ingrains.

Directions for Measuring.

Parties sending plans by mail should follow these general directions for measuring:

Draw a complete diagram of the rooms or spaces to be carpeted, as nearly correct in shape and proportions as possible. Measure with a rule or yardstick in preference to a tape-line unless a Chesterman standard tape-line can be had, and state dimensions in feet and inches. Measure from the straight side, and give length and depth of all windows, doors and other recesses, jogs, etc., separately; also extreme length and breadth to prove correctness of the shorter measures.

In measuring bay windows the diagram should be accurate, with depth, width and length of the bevelled sides exactly stated.

If a room be narrower at one side or end than at the other, give the two measures from opposite corners diagonally.

When several connecting rooms are to be carpeted with the same pattern, more detailed measures should be taken, and all passages and doorways fully shown.

When measuring halls give full length from centre of doors (when shut) at extreme ends of hall; also give measurements where doors are situated, so that pieces can be sewn on to meet room carpets.

Measures for bordered carpets should be very exact.

Indicate front of house on diagram of each floor, and direction you wish pattern to run by the figure of an arrow.

Measure stairs on the wall side, giving the entire length, with half a yard added for shifting. Wide steps at bottom can be mentioned separately.

NOTE.—When ordering carpets not estimated on by us, allow at least one yard for waste in matching pattern on each room. If carpet can be cut with less waste, money will be refunded. Delay in despatch will be avoided by carefully carrying out above instructions.

Colors still tend toward the medium and darker shades, but nothing extremely dark or light being used.

PARQUET WOOD FLOORS.

BOOK-CASE

HEARTH

BOOK CASE

NOTHING can compare with Parquet Wood Flooring for beauty, cleanliness and utility. A floor so covered will last for generations, and although the initial cost may be somewhat greater than carpet, the facility with which the rooms can be cleaned, and the beauty and durability of the floor, more than compensate for this increase.

For parties who do not wish to go to the expense of covering the whole floor with parquet, a very good plan is to put a border of suitable width and then cover the centre with a rug. These goods are made 5-16 inch thick, and can be laid over the old floors without any further preparation than planing down any irregularities. Any good carpenter can do the job, as we send a working drawing with each order shipped, which any good mechanic will understand.

Write for book of designs, and after selecting pattern, send plan of space to be covered, showing doors, jogs, etc., and we will send estimate of cost.

PRICES OF BORDERS.

Strip borders, oak and mahogany, 3-inch, 6c; 4-inch, 7c; 5-inch, 8c; walnut and mahogany, 6-inch, 12c; 8-inch, 16c foot.

Combination borders, oak, maple and mahogany, 8-inch, from 25c; 10-inch, from 30c foot upward.

A large variety of combination borders in any width and woods required from 30c to 75c per square foot.

Parquet fields for centre of floor in great variety, from 30c per square foot.
